PRODUCT DESCRIPTION

The ERC Model 20 Plus UV Currency Counter is designed for individual or small business use. Is equipped with a high performance motor and a microchip computerized mechanism that allows for accurate and high speed counting and batching functions. The Model 20 Plus UV Currency Counter is specifically designed to count sorted bank notes, tickets, coupons and labels in bulk to reduce the time and losses due to human error. The Model 20 Plus UV includes Ultra Violet counterfeit detection and counts banknotes up to 1200 notes per minute as they enter the machine via the accurate roller friction feed system. An added feature of the Model 20 Plus UV money counter is a modern electronic control system capable of counting, count adding and count continuation. The Model 20 Plus UV Currency Counter easily creates batches for bundling or storage. The chassis has a retractable handle and can easily moved around the office or to remote locations.
