PRODUCT DESCRIPTION

The ERC XD 372 is perhaps the most efficient money counter available. Designed to count Banded and loose bill bundles, this cash counting machine has a blazing fast count speed of 1,500 bills per minute. Unlike conventional bill counters, the XD 372 counts by fanning the edge of a bill bundle. No rollers, no feeding, no jams. This is a desktop unit that includes a built in vacuum dust removal system, auto start feature, visual and sonic user selectable operational alarms and a lock down digital control panel for security. But security does not stop there. The XD 372 also includes Ultra Violet counterfeit detection and a built in marking system that will mark counterfeit bills or the top bill of any counted bundle as an added security feature. For counting or verifying large sums of money the XD 372 is the right machine.
