PRODUCT DESCRIPTION

Billcon N 120 Standard US Currency Counter Model N 120 If you re looking for an affordable, accurate and high quality note counter...your search is over. The Billcon N Series Note Counters offer you all this...and so much more. Heavy duty construction, sleek design and 1,500 note per minute speed...all in one compact machine. With the Billcon N Series you can increase your companys productivity, and get the ease of use, product reliability, and superior after sales support that have made Billcon a success in over 70 countries worldwide. **FOUR COUNTING MODES REPEAT MODE** Counting repeats automatically by a preset batch amount 100, 50, 25, 20, 10 , or manually setting any other batch between 1 and 999. **BATCH MODE** Counting stops automatically when count reaches the preset batch amount. **ADD MODE** Automatically performs accumulation count function. **COUNT MODE** Normal counting function. Can add verification function by presetting a batch amount. The Billcon N 120 Currency Counter is a lightweight, compact bill counter that features standard bill length detection for US countries. An instant audible tone works as an alarm to notify the user of double counts, half notes and chains. A flashing light appears on the electronic display to identify more than ten types of possible detection problems. The three digit LED lets you know of detection problems and displays the current bill count. Controls are programmable and may be set to count a pre set batch number of notes for deposit or storage. Counting stops at the batched number and resumes when the hopper is cleared. The N 120 money counter is also ideal for counting some types of coupons, tickets or labels depending on finish of paper stock. **FOUR COUNTING MODES REPEAT MODE** Counting repeats automatically by a preset batch amount 100, 50, 25, 20, 10 , or manually
