PRODUCT DESCRIPTION

CashScan SuperScan III Model 112SP Electronic Bill Verifier Currency Tracking and Security System SuperScan 3 The CashScan Corp. SuperScan III Model 112SP Electronic Bill Verifier is a similar unit to the SuperScan II but is more cost efficient for applications that require only a PC and not a built in printer. Besides being a Counterfeit Bill Detector, for Law Enforcement Agencies for BUY AND BUST BILLS and for Banks, Cash Exchanges, and Check Cashing Establishments for BAIT MONEY the SuperScan is excellent for recording serial numbers. Using several testing methods, including denomination recognition and multiple magnetic heads, the CashScan SuperScan III Model 112SP Electronic Bill Verifier is able to identify the note, verify the authenticity of the bill and using OCR Optical Character Recognition record the serial number of the note, all in less than a second. The SuperScan III can be interfaced with a PC or laptop to build a searchable database of scanned serial numbers. The SuperScan III comes with an included 110 220V power supply. The SuperScan III requires minimal maintenance and is easily upgraded for future currency releases. THE SUPERSCAN III WORKS ON U.S. DOLLAR BILLS ONLY AND DOES NOT BATCH FEATURES The easy to read digital display gives out the quantity of accepted bills, the denomination of each bill, and the total dollar amount. Verifies any old or new U.S. bill in seconds. Simply insert the bill into the Electric Counterfeit Detector and the display will confirm the bill s authenticity or indicate a counterfeit. SuperScan III offers sophisticated counterfeit money detection with simultaneous serial number scanning, for easy traceability of cash transactions. SuperScan III interfaces with a PC which enables you to store serial number data in your PC files, search for and print

PRODUCT SPECIFICATION
