PRODUCT DESCRIPTION

OLDEN BC V Batch Counter and Vacuum Valve Kit with Sensor and Your Choice of Mounts. for Baum, O M, MBM 352S Folders, etc... This OLDEN BC V Electric Batch Paper Counter is and identical machine as the OLDEN BC Batch Counter with your choice of Mounts and an added Vacuum and Valve Kit. The Olden Enterprises Batch Counter is a seven digit total counter, two rate meters and job time display in one compact, easy to operate unit. Four digit maximum batch size. Variable delay time controls feeder or conveyor. The counter body can be ordered with different accessory packages for use on folders, stitchers, inserters, etc. Easy to install on most Baum, O M, MBM, Stahl MBO folder models. Uses the same mounts shown above. Contact your Olden Enterprises dealer or the factory for details on selecting the accessory package for your application. The Olden BC is a batch counter, totalizing counter and rate meter in one compact unit. This counter is used anywhere fast and accurate counting and batching is desired. Because of its versatility, uses include folders, stitchers, inserters, mailing labeling and packaging machines. The batch counter will count up to 9,999,999 total pieces and batch sizes up to 9,999 can be pre set. The batching function can be easily turned off if desired. As a rate meter, it has two different tach functions showing both present and average production speeds. A display of running time shows the total production time for a job. This version of the batch counter comes with a vacuum valve and your choice of mounts. Second Image Above On Right at the Top of This Page Shows a Few of Different Mount Options that are Available at Your Choice with The OLDEN BC Batch Counter. Please ask us if you have any questions as far as which choice of Mounts will best suit your counting needs. Mounts Pictured

PRODUCT SPECIFICATION

DIMENSIONS

Weight:	8.00 lbs.
Width:	3.50 inches
Length:	5.50 inches
Height:	2.30 inches

Above The Standard Post Mount Total Counter comes standard with Sensor and Post Mount. This Mount does NOT Adjust, Move, Swivel or Angle. Simply attaches the display to a surface and reads flat. The Magnetic Base Mount features an adjustable post, which attaches with a strong magnet to a horizontal surface and has the short post that can be tilted up down and locked in place. This allows the display to be aimed at the operators eyes. The Vertical Magnetic Base Mount not pictured has a straight, non adjustable post and is designed to allow the counter to be mounted on vertical surfaces. The Adjustable Post Mount has a short post that can be tilted up down and locked in place, aiming the display at the operators eyes.
