PRODUCT DESCRIPTION

The ERC Model 320 Coin Counter is an electronic coin counting and sorting machine. It has a keyboard enabling you to program the machine to do batching and accumulating counting. The coins are selected according to their diameter and thickness, and the settings can be changed using two buttons. The coins with smaller diameters can be found during the sort by elimination. Coin tube sets for quarters, nickels, dimes, and pennies are also available as an accessory product 15396 , where the coins drop inside the appropriate crimped coin wrap while it is counting. This machine can be used for tokens and foreign coins by selecting your own thickness and diameter according to their appropriate size.
