PRODUCT DESCRIPTION

Cassida C100 Coin Counter Coin Sorter Coin Wrapper Lightweight and compact the Cassida C100 Coin Counter Coin Sorter and Coin Wrapper will smoothly integrate into your business setting thanks to its stylish design. Coin drawers are conveniently located at the front of the C100, allowing the machine to be used in the most space restricted environments. Complete solution Counting coins can be a very time consuming and tedious task. The Cassida C100 is an all in one solution for any coin handling need. Just fill the hopper which can take up to 1600 coins, and let the machine sort and count for you while you concentrate on more important tasks. Just come back to find all your coins accurately counted and separated into individual drawers with a detailed report including the total counted value and number of coins counted for each denomination awaiting you. Batching and Adding Any batch quantity from 0 to 500 can be individually set for each denomination. The Cassida C100 stops and alerts you when any denomination completes the preset batch. The denomination and the amount of coins counted will be displayed on the screen. Total counted value is automatically displayed on the screen as the machine counts, allowing you to stop the machine should you need a specific total value User friendly design Lightweight and compact, the Cassida C100 will smoothly integrate into your business setting thanks to its stylish design. Coin drawers are conveniently located at the front of the C100, allowing the machine to be used in the most space restricted environments. Ergonomic interface The C100 interface contains a clear, easy to read, multi functional 7 digit LED display with large buttons that make any coin processing task simple and comfortable. Countable coins Pennies, nickels, dimes, quarters, and dollar coins. 5 Coin Tubes
