### PRODUCT DESCRIPTION

This Item Has Been Discontinued By Semacon, Please Contact Us For Remaining Limited Supply. This Item Has Been REPLACED BY Semacon s New S 530 Coin Sorting and Value Counting Machine Item 17213 On This Site SEMACON S 520 Coin Sorting and Coin Value Counting Machine The Semacon S 520 Coin Sorter Value Counter can sort and count all five U.S. coin denominations simultaneously, provide value counting displays for each denomination and the total of all denominations. This coin sorter enables the operator to select batch stop settings for each denomination separately typically used in coin packaging wrapping applications or for all denominations together typically used in bagging applications . Batching may also be turned off if not desired. The S 520 Coin Sorting and Coin Value Counting Machine has a compact design that features a solid metal chassis and heavy duty metal components designed to withstand the heavy use found in commercial sorting and counting applications. This Coin Sorting and Value Counting Machine employs a motorized chain driven sorting mechanism not prone to the jamming and maintenance problems associated with gravity and rail sorters. The optional machine clamp kit should be used when bagging, other options include bagging and packaging wrapping attachments for each coin denomination optional accessories are sold separately . FEATURES Counts up to 450 coins per minute Counts, Sorts, Bags and Wraps pennies, nickels, dimes, quarters and dollar coins Coin Drawer Capacity 150 pennies, 80 nickels, 250 dimes, 200 quarters, 80 dollars Counting modes Counting, Adding, Bagging, Batching, Packaging, value counting Hopper capacity up to 500 coins depends on denomination Features a solid metal chassis and heavy duty metal component Compact Design Features an easy to use
